I am pretty impressed with SkillExam's unique method of assessment. They seem to have put in lot of effort in compiling the correct answers. I was able to compare candidate's answer with SkillExam's answer and was really able to test in-depth knowledge of the candidates. I would recommend SkillExam to everyone!!

About Us:

CBS (Central Business Solutions) has something really unique to offer to boost your hiring Process, whether you are hiring in-house or for your client, we can help in taking the guesswork out of your hiring process.

We provide you customized online assessment test for skills of your choice to assess your candidates. You send us your request with skill sets, we will do the rest !

Here is how it works:

1. You create an online assessment test for one of your potential hire with certain skills to be tested (e.g. Excel, Accounting or Java)
2. The test could be of 15/30/60 minutes (depending upon your request) comprising of random questions from the required skills from the vast set of questions repositories stored in our database.
3. You can then send the test link with secure user_id and password via email to your candidate.
4. Once your candidate receives the assessment link with secure username and password. The candidate takes the exam with free hand answers (no multiple choice questions). Since a genuine candidate will know the right answer and would be able to write the answer within stipulated time.
5. Once the exam is done you can see the assessment sheet (pdf) with candidate's answers and our answers (actual answers) in your account.
6. You will realize the in-depth knowledge of the candidate in required skill set and proceed to further steps in hiring.

Pricing:

We have very economical pricing for our services:
